A back seat bar is allowed. This is to protect the back of the driver seat. This bar may be mounted to the leg protection structure or the rear bumper but must NOT protect the rear wheels in any way!

All mowers must run a factory hood and fenders and have the hood either screwed or welded down to dash panel around driver's area. (If hood is fiberglass, you can make one out of sheet metal only, but must be the same size as the fiberglass one.)

Mowers must have good brakes, also forward and reverse gears at the start of the heat.

The gas tank must be secured and have a cap on it. (If any gas at all is leaking you will be asked to shut down.)

Leg guards are mandatory and must be bolted and/or welded from rear fender to front of foot rest or frame.

A rear bumper is permitted, but is not allowed to extend more than 4 inches out and it must stay in between the tires; also, no spikes, sharp edges allowed. (Bumper can be homemade with I/H beam or sq. tubing.)

Regearing and changing pulleys to increase speed is permitted and encouraged.

All mowers must use lawn mower type wheels; tractor threads and cut tires will be permitted, but no tire chains or dual wheels will be allowed.

Mower deck must be removed.

All headlights and any other glass and plastics must be removed before you enter the pits.

Batteries must be removed from mower and only used to jump start the mower before the heat begins. If pull start is used, driver will not be permitted to restart engine during the heat.

No front bumpers.

Roll-over driver is out of heat. Also, if driver a driver touches the ground with a hand or a foot, driver is out of heat.

For safety, if mower does roll over, all drivers must stop and wait until that driver up-rights his mower and gets off the track.

Please put your number on each side of your mower or helmet so we can track the winners.
